State of emergency - the RedQuadrant state of transformation shadow report

23 May 2018

RedQuadrant is proud to be the lead partner in the Public Service Transformation Academy - and we have sweated blood to get the Public Service: State of Transformation think piece and case studies reports out, and to develop, with partners, the first PSTA conference *it doesn't have to be this way* on 24 May this year:

<https://www.publicservicetransformation.org/2018/05/state-of-transformation-report/>

However, these are group efforts, and we wanted to give some of our RedQuadrant service leads and partners the opportunity to share their thinking, insights, and methods. Therefore we have produced our own report:

State of emergency - the RedQuadrant state of transformation shadow report.

We hope you enjoy - and will continue the conversation with us.

We believe in conversations.
